PROFESSIONAL SUMMARY

Computer Science and Engineering student with project experience analyzing retail and support ticket data using SQL and Python. Built two analytics projects with reproducible synthetic datasets and interactive dashboards to examine revenue, margin, SLA compliance, resolution time, and customer ratings. Skilled in data cleaning, validation, exploratory data analysis, Excel, and Power BI; seeking an entry-level Data Analyst role.

TECHNICAL SKILLS

Data Analysis: Data cleaning, data validation, exploratory data analysis (EDA), data quality, KPI reporting, data visualization

SQL and Databases: SQL, MySQL, DBMS, joins, filtering, aggregation, queries, Supabase

BI and Programming: Excel, Power BI, Python

PROJECTS

Retail Revenue and Margin Explorer | SQL, Python, HTML, CSS, JavaScript

- Created a reproducible synthetic dataset of 720 order lines and analyzed revenue, gross profit, and margin by month, region, and category using SQL and Python.
- Built an interactive offline dashboard with KPI summaries, filters, and monthly and category charts; added checks for invalid quantities and profit reconciliation.

Support Ticket SLA Quality Monitor | SQL, Python, HTML, CSS, JavaScript

- Created a synthetic dataset of 480 support tickets and analyzed SLA compliance, resolution times, and customer ratings by priority and category.
- Wrote SQL summaries and a check for inconsistent SLA records; built an offline dashboard with priority and category filters and monthly trends.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science and Engineering

Dr. Ram Manohar Lohia Avadh University, Uttar Pradesh | Currently pursuing, 3rd Year

Relevant coursework: Database Management Systems, Data Mining and Data Warehousing, Python, Data Structures and Algorithms, Object-Oriented Programming, Computer Networks

LANGUAGES

English | Hindi
